Refresher for Anganwadi Workers?	Yes
Orientation for Helpers?	Yes
Refresher for Helpers?	Yes

Mention the Problems faced:	Since all the children attend school and go to the Anganwadi Centre in the afternoon only for food, attendance for pre-school non-formal education is not regular. An average of only about 10 children attend the pre-school non-formal education. Attendance is higher during Saturday and on school holidays

Mention the Problems faced:	The Anganwadi Centre building is very old and delapidated. The window panes are broken and the roof leaks during rain. The AWW has to carry the registers home after every working day as the building is not secure and it is unsafe to leave things back. Permission has already been sought for condemning the building
